MediaHub UHD TA-3360

MediaHub UHD provides your guests with all the connections they need to play their video or audio content on the in-room TV and also to recharge their mobile devices.

HDMI™, the universal method for connecting mobile phones, tablets, laptops and gaming consoles to HDTVs, supports 4K content to give the highest quality images.

Bluetooth lets your guests listen to their music or podcasts over the TV speakers without docking.

Finally, two USB ports are provided for charging mobile devices, one of which can be configured as passthrough if required.

Combine with the PoE module to power MediaHub UHD and provide your guests with a convenient Ethernet connection.

A desktop version, MediaHub UHD Desktop, is also available.

MediaHub UHD Specifications

- 4K (2160p) support.
 - HDMI 2.0 port to display movies, videos and photos on the in-room TV.
 - Dual 2.4 amp, 5 volt USB charge port for tablets and smart phones.
 - Euroclip standard 50 x 50mm module.
 - Flush mounts into wide range of furnishings.
 - Bluetooth pairing point for wireless audio playback via the TV.
 - Audio jack for audio playback via the TV.
 - Automatic input switching with CEC-enabled hospitality TVs.
 - Available in SoftTouch black or SoftTouch white.
 - Supplied with two trims, SoftTouch (black or white) and SoftTouch (black or white) with brushed aluminium insert.
 - Other trim and extender options available (subject to MOQ).
- Simple Installation, power supply and 3.5m HDMI cable included.

MediaHub UHD TA-3360

The MediaHub UHD Desktop is ideal for your guest room desk or other surface by the TV. Equipped with the most important and universally accepted mobile connections to charge and play, your guests will appreciate the two fast-charging USB ports, wireless Bluetooth for listening to their music over the TV speakers, and the HDMI port which supports 4K.

SPECIFICATIONS

- 4K (2160p) support.

PoE MiniClip Module 50mm

POE-512VBK01

Simplify MediaHub UHD or Mini-Clip USB installation using the Power Over Ethernet (PoE) module. Now the MediaHub UHD and Mini-Clip USB can install flush into drywall, and get power from a compliant Ethernet connection.

Power over Ethernet Plus (PoE Plus or IEEE 802.3at) is preferred in order to supply sufficient power for "fast-charging" mobile devices.

SPECIFICATIONS

- Compatible with both 50mm and 100mm carriers and trims.
- LAN In (rear) Physical: RJ45, CAT6 PoE: 802.3af, 802.3at.
- LAN Out (front) Physical: RJ45, CAT6.
- Power Socket (rear) Physical: DC Barrel Connector
- Voltage Out: 5VDC or 12VDC, set by switch on rear.
- Current Out: 802.3af - 5V@2.5A or 12V@1A
- Current Out: 802.3at - 5V@3.5A or 12V@2A

NOTE: Specified currents are the maximum that can be available depending upon the specification and loading of the PoE switch.

AVAILABLE COLORS 

MediaHub UHD and PoE Module

The MediaHub UHD supports Power over Ethernet (PoE) in order to simplify in-wall installations. Now the MediaHub UHD can install flush into drywall and get power from a compliant Ethernet connection. Power over Ethernet Plus (PoE Plus) or IEEE P802.3at is required in order to supply sufficient power for fast-charging mobile devices. MediaHub UHD with the PoE module provides guests with the most important and universal mobile connections (USB, Bluetooth, HDMI™, and Ethernet). Guests can charge mobile devices, play music wirelessly through the TV speakers, play HD video on the in-room TV, and access a wired internet connection.

SPECIFICATIONS

- 4K (2160p) support
- HDMI 2.0 port for displaying your movies, videos and photos on the in-room TV
- Dual 2.4 amp, 5 volt USB charge port for tablets and smart phones. (2.4 amp + 1 amp when used with PoE 802.3af).
- Flush mounts into wide range of furnishings, millwork, casegoods, and partition walls
- Euroclip standard 50 x 50mm module
- Bluetooth pairing point for wireless audio playback on the TV speakers
- Audio jack for audio playback on the TV speakers.
- Automatic input switching via HDMI-CEC for any CEC enabled TV
- Small footprint and choice of rubberized black or brushed metal finish, provide designer friendly aesthetics.
- Simple installation - 3.5m HDMI cable included.
- Simple Installation - Requires a single HDMI cable run from the MediaHub to the TV, and Power over Ethernet

Chargeport Duo | TA-8250

DUAL WIRELESS CHARGER

ChargePort Duo is fully featured, dual wireless charger which also provides USB Type A and USB Type C charging. For your peace of mind and to ensure safe and reliable wireless charging, ChargePort Duo is fully Qi Certified. The wireless charging pads can deliver up to 10 watts each ensuring the fastest charging time for guest devices, while the USB ports will deliver another 18 watts to charge phones or tablets. Simple and quick to install, ChargePort Duo is supplied with a range of security options including bracket, lanyard and adhesive pad. ChargePort Duo looks great on the guest room nightstand or desk and is available in black or white.

FEATURES

- Qi Certified for safe and reliable wireless charging.
- For fast charging, each Qi wireless charging pad can charge up to 10 watts (total 20 watts if both used).
- USB Type A and USB Type C for charging non-Qi devices and tablets, can deliver another 18 watts.
- Simple installation, only requires access to a single mains socket for the power supply.
- Anti-theft/ anti-tamper security options are provided: fixing bracket with cable clamp, lanyard and adhesive pad.

Mobile charging for events and public spaces

Now your guests can charge their portable devices while continuing to eat in your restaurant, meeting clients in the lobby, attending a session in the conference space. These mobile charging solutions are ideal for events where guests are at their tables or away from a power source and wish to keep their devices close by.

Pull-through Power

Flexible charging options to keep a breast of technology.

The only constant in technology is change. With Pull-through Power you can easily adjust the charging options you provide to ensure you are always offering your guests the best technology available. Pull-through power allows you to decide which charging options you want to provide without disrupting the fabric of the guest room.

TA-7300-01-CBK | Pull-Through Power

The Pull-Through Power is an affordable multi-charging station offering guests convenient in-room charging. Add up to three individual cables compatible with today's popular portable devices, presented in a stylish low profile holder, ideal for the desktop or night stand.

Cable options: Apple Lightning, Apple 30-pin, Micro USB, USB-C.

Pull-Through is flexible and can accommodate other cable types too, for example HDMI.

Hotel Room Safe 15"/17"

AT-2045MB-BK

Today safety is a top priority as "Safety first is safety always".

Many of the people realize that not everything is material possessions. Simultaneously, most people seem to accept the value of preserving the important resources they already have. There's no limit to what is important to a person; however, there are several things of reasonably useful interest that any person would consider worthwhile.

There is no safer way to safeguard your valuables than to buy a good standard home safe. Electronic safe lockers are the best way to defend against home stealing your precious, assets and important papers.

Is the perfect charging solution that lets your guests charge their phones without having to be tied to a wall outlet. Charging suitable for common areas like bars, reaturants, cafe's , hotel lobby, meeting room and any public areas. The battery packs are recharged when are returned to the included charging station. It's large 10,000mAh battery capacity allows you to charge more, larger devices for longer.

Qi, from the Wireless Power Consortium (WPC), is the leading standard for wireless charging. It is embedded into the latest smartphones and provides the ultimate in convenient, hassle-free charging.

This collection of wireless charging products is ideally suited to the hotel guest room and offers a range of features including security and additional USB charging options.

10 Watt In-desk Wireless Charger

TA-8210

This In-Desk Qi Charger provides the highest specification wireless charging for your guests. It is fully Qi Certified to WPC Qi V1.2.4 to guarantee maximum device compatibility. As a 10 watt device, the In-Desk Qi Charger will minimise the time it takes your guests mobile devices to charge. The In-Desk Qi Charger is easily fitted to any surface with an 86mm diameter hole and a thickness between 17mm and 40mm. As it mounts virtually flush with the surface it maximises the usable surface space for your guests, yet is still easily identifiable as a wireless charging point.

LA TAVOLA'S FLATWARE

Designing beautiful flatware is not within everyone's capability.

Good taste, sensitivity, and above all else, years of trade experience are required.

Every single item is the result of painstaking attention to detail that makes each pattern unique. To create a great flatware pattern one needs to make sure all of the right ingredients - weight, harmony of shape, proportion, ergonomics, balance - are present in exactly the right proportions.

The patterns in this collection have been designed by La Tavola's R. & D. Team under the supervision of Giulio and Sergio Sambonet.

Those personally designed by them are identified by the trademarks:

Norma (1)

Tosca (2)

Lucia (3)

Aida (4)

Yuki

Rainbow

New Wave

Both models are registered designs by Giulio Sambonet

Vegan (1)

Fusion (2)

Chill Out (3)

Lounge (4)

TITANIUM COATING: A UNIQUE AND ENGAGING WAY TO PRESENT YOUR FLATWARE

Based on PVD technology (Physical Vapour Deposition), the titanium coating process allows the formation of a highly adherent film which has exceptional chemical and physical characteristics such as an extremely hard surface and high resistance to corrosion.

The titanium coating is available in Black, Gold, Venetian Gold and Platinum Champagne.

LA TAVOLA'S HOLLOWARE
CAFE & CLUB

A holloware line is identified by the style of its coffee and tea pots.

Those of the Cafe & Club collection are characterized by their unique lid - the one-of-a-kind knob conjures up memories of the berets of Parisian painters who, on nice spring days, would lay out their easels along the Seine river.

The harmonious silhouette created by the bone china cups of the Porcelain & Bone China collection creates a happy communion between metal and porcelain.

“THE DESIGN OF THE CAFE CLUB
LINE IS CONTEMPORARY AND
VERSATILE, WITH A LIVELY AND
DYNAMIC CHARACTER”

GIULIO SAMBONET

LA TAVOLA'S SILVERWARE

BALLET

Inspired by the silverware of the first class restaurants on luxury cruise liners that sailed the oceans at the beginning of the twentieth-century, the Ballet collection revives the opulence of that exclusive world, with a 21st century touch.

The collection sits beautifully on the tables of today's new temples of luxury, themselves the work of talented designers and stylists.

Ballet represents the height of elegance, raising the bar of tabletop presentation to new levels.

"SETTING THE TABLE WITH
BALLET CANNOT BUT INSPIRE
AN INDULGENT AND LEISURELY
DINING EXPERIENCE"

SERGIO SAMBONET

Oyster Chafer for induction

LA TAVOLA'S BUFFET

WONDERBUFFET

The Wonderbuffet is a revolution in the world of buffet equipment.

La Tavola brings to its customers a fresh design, well suited to match contemporary requirements of style.

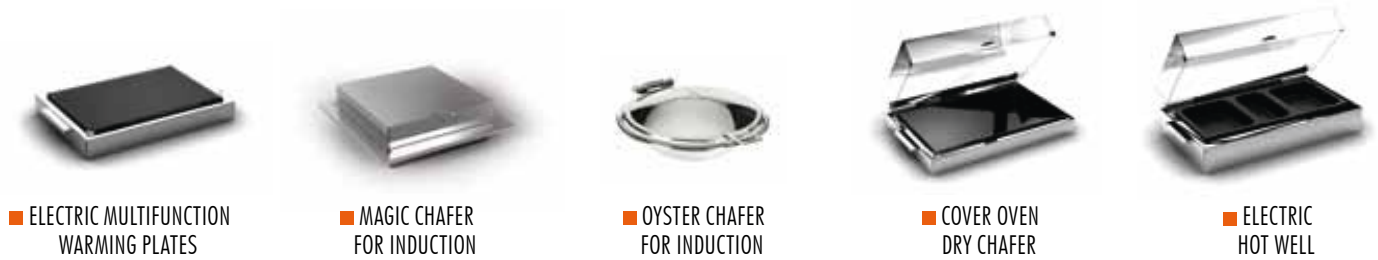

La Tavola's Wonderbuffet features a large variety of warming, cooling and cooking functions that will excite and inspire Chefs.

We invite you to discover the functional subtleties of La Tavola's Wonderbuffet products as well as the endless possibilities of customization and personalization.

WARMING FUNCTIONS

The main challenge to maintaining heat is to make sure food retains its flavours and properties over time. La Tavola's warming functions help you achieve just that objective, with specific solutions for different dishes, service styles and power sources available.

COOLING FUNCTIONS

Stylish cooling solutions powered by eutectic cooling plates. Ideal for fruit and salad, yoghurt, sushi, cold cuts, beverages and ice cream. Maximum versatility of use without requiring electricity.

COOKING FUNCTIONS

La Tavola's free-standing cooking stations are streamlined, practical, easy to use, clean and store.

THE CHAFING DISH REVOLUTION MAGIC CHAFER

THE MAGIC CHAFER IS THE
ONLY CHAFER THAT ALLOWS
FOR HUMIDITY CONTROL.
NO MORE SOGGY FOOD!

DIFFERENT DISHES REQUIRE DIFFERENT LEVELS OF HUMIDITY TO MAINTAIN THEIR TASTE, FRESHNESS AND CRISPNESS LONGER.

TYPE OF FOOD		HUMIDITY REQUIRED	CHS® WATER PAN FILLING OPTIONS
BOILED RICE, STEAMED VEGETABLES AND FISH, ETC		HIGH HUMIDITY 	
STEWED MEAT, FISH, VEGETABLES WITH ANY TYPE OF SAUCE, ETC		LIMITED HUMIDITY 	
ROASTED AND BROILED MEATS, FRIED FOOD, BAKED POTATOES, ETC		NO HUMIDITY / DRY 	

Water Pan top view

CONTROLLED HUMIDITY SYSTEM®

Thanks to its CHS® patented Water Pan, the Magic Chafer® provides the exact amount of steam necessary for any particular dish.

The CHS® Water Pan is divided into 5 compartments, a large central one (A) and 4 adjacent ones (B-C-D-E).

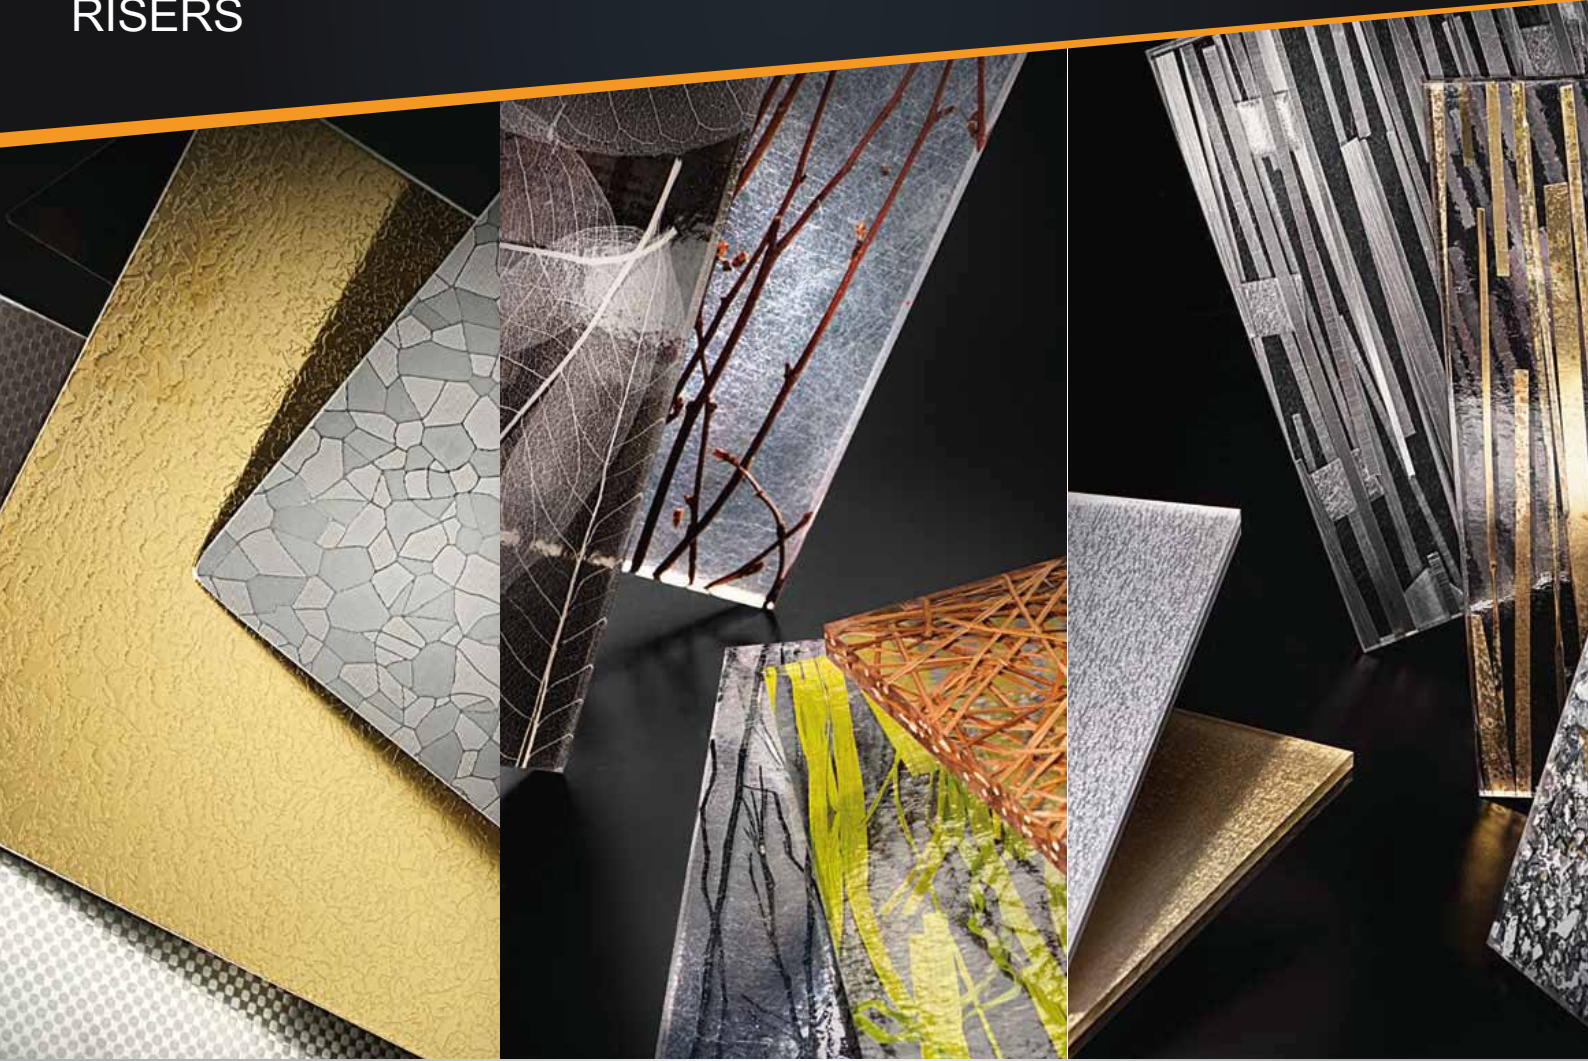

By filling all, some, or none of them, you will be able to control the amount of steam generated by your Magic Chafer®.

Eutectic Cooling Plate

RISERS

RISERS

A large range of risers is available with 3 different heights to create multi-level displays. Be creative - Cubes, Crosses, Cuts and Corners - make it as flexible as Origami!

For further personalization you can choose from a range of different finishes and colors.

تتميز من الخشب الفاخر بالعالمية لتتلاءم مع كل طراز من التصميمات الحديثة، معاصرة، أمادية، معاصرة، تقليدية وصناعات من قبل حرفيين في الولايات المتحدة الأمريكية.

Waterproof Mirror^{tv}

Indoor Waterproof TV is designed for wet environments such as the shower, bathtub. The powder-coated stainless steel housing has been engineered with drip management in mind – with complete protection for electronic components. Don't be afraid to turn up the heat. The TV screen acts as a defogger, so nothing will cloud your vision.

تتميز هذه المرايا المتكبرة التي تعكس في العربة المصنوع من الفولاذ المقاوم للصدأ، مع حماية كاملة للمكونات الإلكترونية، كما تعمل الشاشة بمثابة دافئ للضباب، لذلك لن تتحجب الرؤية، بل ستظل بوضوح دائمًا.

Modern Design

A Mirror TV is unlike any other product. We offer the ultimate solution to the modern dilemma of interior design.

هذه المرايا المتكبرة التي تعكس في العربة المصنوع من الفولاذ المقاوم للصدأ هي الحل الأمثل للمعضلة الحديثة للتصميم الداخلي.

LiveSmarter

MIRROR TV, connected TV or hybrid TV, is a television set with integrated internet and interactive, Smart TV is a technological convergence between computers and flatscreen television sets.

تعد أجهزة التلفزيون المتصلة أو الهجينة، تلفزيونات مزودة بـ الإنترنت والتفاعل، Smart TV هي التقاطع التكنولوجي بين الحواسيب وأجهزة التلفزيون المسطحة.

A conventional television can be jarring, working against the overall design of your interior. A Mirror TV has the exact opposite effect, in fact it can create an eye-catching focal point.

يمكن أن يكون التلفزيون التقليدي مع التصميم الداخلي، يعمل ضد التصميم العام للداخل. التلفزيون المرآة له تأثير عكس تماماً، بل يمكنه أن يخلق نقطة جذب بصرية.

Luxury Wooden Frame

Framed or frameless, MIRROR TV is just gorgeously perfect. We offer any styles of sophisticated frames, or any design you desire that we can use to frame your Mirror TV.

تعد أجهزة التلفزيون المرآة، سواء كانت مع إطار أو بدون إطار، جميلة تماماً. نقدم أي أنماط من إطارات متطورة، أو أي تصميم ترغب فيه يمكننا استخدامه لإطار التلفزيون المرآة.

MIRROR TV can be installed with multiple TVs in one mirror. You can also use small mirrors altogether. It all depends on your design, MIRROR TV will make it happen for you.

يمكن تثبيت أجهزة التلفزيون المرآة في مرآة واحدة. يمكنك أيضاً استخدام مرآة صغيرة معاً. كل ذلك يعتمد على تصميمك، التلفزيون المرآة سيجعل ذلك يتحقق لك.

MIRROR TV also offers you the highest quality solid wooden frames, dominantly used in galleries.

تقدم أجهزة التلفزيون المرآة أيضاً إطارات خشبية صلبة عالية الجودة، التي تستخدم غالباً في المتاحف الفنية.
